

# Summer Camp 2018

## Time:

9:30 AM – 12:00 noon

## For:

3, 4, 5 & 6 year olds.  
(Must be 3 by April 1, 2018)

**Cost:** \$140.00 per week.  
Check to First School or cash and Health Forms due by first day of each camp.

## ART & DESIGN JULY 9-13

This is a week of creativity. We will create art with traditional and non-traditional materials, look at the work of famous artists, and hold a “fancy” art shot on Friday. Some creations will come home and others will decorate the school.

## CREATE & BUILD With STEM JULY 16-20

Do you know how to build a skyscraper? Can you build a bridge? We will use lots of different building supplies to build and construct structures. STEM will be put to use in building and development for the students. A favorite part of this week is sure to be Friday’s water day — how will water affect our creations?

## CREATIVE COOKING JULY 23-27

Students will learn the importance of following directions in a recipe. They will learn how to add ingredients in a special 1,2,3 order. Students will also learn about chemical reactions through experimenting with different recipes. Math skills will be highlighted by using different measurements. We will also visit the First School Grocery and Dessert “Shops” within the building. A perfect opportunity to mesh science and math and eating!
