

YOUNG 5's CLASS for 2020-2021

We are offering a young 5's class for the 2020-21 school year. This class is designed for children who turn 5 in May through December. They may be eligible for kindergarten but may benefit from extra time to strengthen social and academic skills. The class will be a combination of large group, small group and individualized instruction for the children. Basic kindergarten skills will be introduced and strengthened throughout the year. Children will be able to learn at their own pace and skill level. Many different opportunities for academic, social and gross motor skills will be provided throughout the year. After completing this class the students will have a great foundation to move onto kindergarten. This class is being taught by Mrs. Shelly Zielinski and will be offered M-F AM with an option to extend the day until 2:15 with the addition of the afternoon enrichment session. We are also offering an Afternoon session of this class. Be sure to sign up early! We also will have PM Kindergarten if enough sign up.

First School and Dayton Moms Blog

We are excited about our collaboration with the people over at Dayton Moms Blog! Check them out at Dayton.citymomsblog.com and also on their Facebook Page www.facebook.com/daytonmomsblog. We are expanding our presence in the Dayton area and the great people over at Dayton Moms blog are going to help us out. Check them out...we think you will be impressed.

BOX TOPS Update:

We think you all received the flyer we sent out a while back describing the changes to the Box Tops program. There is no more clipping! You simply scan your grocery receipt and every item that qualifies for Box Tops is automatically registered under First School. You must download on the Apple App Store, or Get it on Google Play. Sign up and just place First School as your school choice. It's really simple and fast. We just all need to remember to scan our receipts! That's the hard part! But over the years we have usually collected around \$200 annually from your generosity. Thanks again for doing this for us!
